

IESCON 2026- Pre-Conference Course Form

Dr. Agam Bhatnagar

(Sponsor-Mani)

1. Mentor bio

Dr. Agam Bhatnagar is a Gold Medallist Endodontist, patent-holding clinical innovator, filmmaker, and private practitioner in Gurgaon dedicated to Vital Pulp Therapy and microscope-enhanced endodontics. A Fellow of the Pierre Fauchard Academy, he has been recognised among the Top 5 Most Influential Endodontists in Asia (2025) and is a two-time recipient of the Highly Commended Endodontist of the Year award, along with the ICDRO Innovation Award, KIBS Award, and several other honours. An internationally sought-after speaker, independent researcher, published author, and founder of UnLearning Endodontics and Eeducation.in, he is known for his cinematic, evidence-based teaching style that bridges research with everyday clinical practice.

2. Course overview / highlights

Clinical excellence in endodontics extends beyond mastering instruments and protocols—it lies in making sound clinical decisions at every stage of treatment. This course is designed to bridge the gap between postgraduate training and real-world clinical practice. Through case-based discussions and hands-on exercises, participants will learn how to integrate biological principles, current evidence and clinical experience into everyday decision-making. Topics include diagnosis, case selection, CBCT interpretation, management of calcified and curved canals, pre-endodontic build-ups, management of the hot tooth, and strategies that improve efficiency and predictability in practice. The course also explores practical aspects of establishing a successful referral-based endodontic practice. The emphasis throughout is on the clinical thought process behind every decision, enabling participants to become confident, predictable and practice-ready clinicians

3. Registration amount- 3000/-

4. Hands-on training details

- * Hands-on exercises on extracted tooth with access opened.
- * Negotiation of calcified canals using D-Finders and contemporary hand files
- * Modern NiTi techniques for routine and complex clinical scenarios
- * Practical management of calcified and curved canals
- * Open House: Interactive discussion and solutions to participant queries

5. What participants will learn

- * A structured approach to clinical decision-making from diagnosis to follow-up
- * Practical management of calcified and curved canals
- * Rational use of CBCT in endodontics
- * Predictable management of the hot tooth
- * Principles of pre-endodontic build-ups
- * Improving efficiency, predictability and treatment outcomes
- * Clinical strategies for transitioning into successful independent practice

6. What participants will receive

- * Participation certificate
- * Materials and consumables required for the hands-on exercises:
 1. JIZAI Rotary Files – 1 Pack.
 2. D Finders #10 – 1 File.
 3. Glide Finder #10 – 1 File.
 4. K File #10 – 1 File.
 5. Endo Practice Block – 1 Pc.
 6. Foam Box – 1 pc.
 7. JIZAI Mug – 1 pc.
 8. Mani Mobile Stand – 1pc.

7. Duration of course- One-day Pre-Conference Course

8. Venue-Chandra Dental College & Hospital, Safedabad, Barabanki (near Faizabad Road)

9. No. Of participants—Limited seats available
